About Society for Banana Research and Development (SBRD)

The **Society for Banana Research and Development (SBRD)** is a professional and scientific society dedicated to promoting research, development, innovation and knowledge exchange in the field of banana science and its allied areas. The Society provides a common platform for scientists, researchers, academicians, students, extension professionals, farmers, entrepreneurs and other stakeholders associated with banana production and value chains.

SBRD aims to facilitate collaboration and interaction among professionals working on different aspects of banana, including **genetic improvement, crop production, plant protection, biotechnology, post-harvest management, value addition, processing, climate-resilient technologies and sustainable banana-based farming systems**. The Society encourages scientific research, technology dissemination and the exchange of knowledge to address emerging challenges in banana cultivation and utilization.

The Society also promotes **seminars, conferences, workshops, farmer-oriented programmes, exhibitions, training programmes and scientific publications** for sharing the latest developments and technologies related to banana. Through these activities, SBRD seeks to strengthen linkages between research institutions, industry, farming communities and other stakeholders and contribute towards the sustainable development of the banana sector.

Vision

To serve as a leading platform for advancing **research, innovation, knowledge sharing and sustainable development of the banana sector**.

Mission

To promote scientific research, professional collaboration, technology dissemination and capacity building for enhancing **productivity, profitability, sustainability and value addition in banana production**.

Legal Status

Society for Banana Research and Development (SBRD) is registered under the **Tamil Nadu Societies Registration Act, 1975 (Tamil Nadu Act 27 of 1975). (If we click the registration certificate pdf will open)**
